MY PROFILE

Working within a range of art departments for a decade, Sarah has considerable experience in the entertainment industry and an intimate understanding of every position in the art department. Sarah is passionate about creating worlds that serve as unique, immersive portraits of each character within a script. Story, intention, and values are most imperative when developing the look and feeling of a film, commercial, music video, or series.

English, French

INTERESTS

Comedy, Documentary, Period Pieces, History, Justice, Astrology, Mysticism, Sociology, Psychology, themes of grief and resilience

WORK EXPERIENCE

PRODUCTION DESIGNER & ART DIRECTOR

Freelance

Los Angeles, CA

2015 - 2025

As a production designer, I am experienced with designing interior spaces, creating design workflows, developing project timelines, generating 3D assets, executing pitch decks, collaborating with clients to achieve specific visions, and coming up with creative solutions to problems on the spot. As an art director, I am extremely familiar with setting deadlines, ensuring creative deliverables on a quick timeline, tracking and overseeing department budgets, and managing a diverse team of creatives. Both positions have given me an immense amount of experience dealing with vendors and clients in order to bring a creative vision to life.

CO-CURATOR & DIRECTOR

"Try a Little Tenderness"

Altadena, CA

2018

As co-curator, I curated a group of twenty-seven artists and their work to reflect a collective goal of tenderness and vulnerability in an increasingly harsh world. As director, I organized, planned, and executed a pop up gallery opening for the community and ensured that all proceeds went to charity.

GLENVIEW DOCENT

Hudson River Museum

Yonkers, NY

2011 - 2015

As a docent, I educated visitors about American Eastlake architecture and 19th century social customs, conducted hourly tours throughout historical home, and monitored security of home and valuable antiques. I also conceptualized and investigated annual research projects concerning topical customs, events, and idiosyncrasies unique to the time period.

INTERN

Museum of Reclaimed Urban Space

New York City, NY

2011

I interviewed and recorded oral histories from members of the community, researched and investigated the authenticity of firsthand accounts of neighborhood events, and authored walking tours of the neighborhood based on collected oral histories from the community.
